a. General Situation.

to restrict access to Berlin, it will be of vital importance to demonstrate to the firm intent of the United States not to tolerate such actions. If the Soviet harassment continues to threaten Western access to Berlin, the security interests of the United States and its Allies will require immediate and forceful action to counter the Soviet challenge.

b. Major Events.

DECLASSIFIED

(b)(1) ARMY

(1) The Soviets have forced (either Soviet or East German or a combination of both) immediately available with which to execute an effective blockade of Berlin. Such blockade could extend to the air, rail, water and termination of access to the city and could be either temporary and harassing, or total and permanent in nature.

(2) See Current Intelligence Estimates and Summaries.

c. Friendly Forces.

(1) US Air Forces, Europe (USAFE) provides aircraft in support of USARF (c) of Action A and/or B as ordered by CINCPAC.

(2) British Forces, West Germany and Berlin.

(3) French Forces, West Germany and Berlin.

d. Restrictions.

(1) The Soviets or the German Democratic Republic have initiated harassing measures to restrict road access to Berlin, or have declared that such a blockade exists.

(2) All measures other than the use of military force have failed to end the restrictions.

GENERAL

1. This plan prescribes military operations to implement two Courses of Action:

a. Course of Action A:

SANITIZED COPY
SENSITIVE INFORMATION DELETED

(b)(1) Army

b. Course of Action B:

2. The two courses of action listed above are related but are separate and distinct. Either course of action may be ordered executed independently of the other, depending upon the conditions which exist at the time. Each course of action prescribes measures within effective agreements and which are rights inherent in the US status as an occupying power of Berlin.

3. The order to

(1) The tactical mission of the ground forces committed will be to proceed through the checkpoint(s) with the objective of gaining access to the other end of the road corridor. Ground forces, in a magnitude to be determined at the time in light of existing conditions, may be committed from both the Helmstedt end of the road corridor and the Berlin end. The Helmstedt force should be prepared to bridge the Elbe River, if necessary.

(2) The armed forces mentioned above

The Task Force Commander will present proper credentials, and request passage. Soviet reaction to these requests will be one of those described in Course of Action A (paragraph 5b above).

~~TOP SECRET~~

~~CONFIDENTIAL~~
DOCUMENTATION OF MILITARY MOTOR VEHICLES
TRAVELING TO AND FROM BERLIN

1. Effective 0001 hours, 16 August 1958, this latter rescinds message SX 6659, Headquarters USLMUR, 22 October 1957 and SX-6855, Headquarters USLMUR, 14 August 1958.

2. Reference is made to:

a. Message SX 6070, Headquarters USLMUR, 14 August 1958.

b. USLMUR Circular 580-180.

3. The Commander in Chief, Group of Soviet Forces, Germany, has agreed to a substantially simpler procedure for documenting US, British, and French military motor vehicles traveling to and from Berlin than the Soviets have previously demanded. Soviet authorities continue to claim the right to conduct spot inspections of vehicles enroute to or from Berlin. Soviet inspection of vehicles, however, has been and will continue to be rejected.

SANITIZED COPY

SENSITIVE INFORMATION DELETED

(b)(1) ARMY

4. The new documentation agreed to by the Soviet authorities, and which is acceptable to the United States, will be in the form of a movement order in English on a mission on one sheet of paper. It will show the identity of the convoy commander (or vehicle commander, if the vehicle is traveling individually), the number only (not identity) of other officers and uniformed personnel in the convoy, the numbers and types of vehicles, and a brief description of the cargo. A sample movement order with several lines filled in is shown in Appendix I.

5. Effective 0001 hours, 16 August 1958, all US military vehicles traveling individually or in convoy on the autobahn to and from Berlin will be documented as shown in paragraph 4. Specifically excluded from this requirement, however, are five-passenger official sedans, when moving singly and not as part of a convoy. Official sedans, when moving individually, will not require documentation other than the DD Form 110-2 (Vehicle and Equipment Operation Record) (Trip Ticket) and the personal documentation of the occupants of the sedan as required by USLMUR Circular 580-180.

6. Preparation of movement orders for military vehicles (other than official sedans) will be accomplished by personnel on duty at the Helmstedt autobahn checkpoint for inbound traffic, and at a point in Berlin designated by the GS, Berlin Command, for outbound traffic. A convoy commander (or vehicle commander, if the vehicle is traveling individually) will have in his possession, in letter form and authenticated by a responsible officer, all the data required by US checkpoint personnel for the preparation of movement orders. Appendix 2 contains a list of the required data, and indicates the order in which each item should appear on the document to be presented at the checkpoint.

a. It is emphasized that all data must be accurate and in exact sequence, item by item, as indicated on the inclosure, in order that there will be no unnecessary delay in the preparation of movement orders at checkpoints.

b. In the case of convoys, the convoy commander or his representative, with the document containing the data referred to above in his possession, will travel sufficiently in advance of the main body to arrive at the checkpoint and have the movement order prepared by the time the main body of the convoy arrives at the checkpoint.

CONFIDENTIAL

ATTACH B to
USLMUR DP 103

SPECIAL HANDLING REQUIRED NOT
RELEASABLE TO FOREIGN NATIONALS

~~CONFIDENTIAL~~

c. The CG, Berlin Command, is responsible that each US military vehicle moving toward a Soviet checkpoint is properly documented.

d. The movement order referred to in paragraph 4 is in addition to normal documentation requirements for the movement of motor vehicles within this command. Current directives pertaining to convoy clearances, documents to be in possession of personnel operating motor vehicles, etc., are not affected by this letter.

e. A convoy commander will show to Soviet checkpoint personnel only the completed movement order and his own individual identification card. When an individual military vehicle (other than a single sedan) is traveling alone, i.e., not in convoy, the vehicle commander will show to Soviet checkpoint personnel the completed movement order and his own identification card. Identification cards of other personnel will not be shown.

f. Each vehicle traveling to or from Berlin will be secured and covered only to the extent normal in movement elsewhere in Germany.

g.
